way on Sunday afternoon the geal towards which its energetic members have been working zealously for over a month by holding a class initiation in Owis' hall at which an even half hundred new members were added to the nest, bringing its present membership up to 347. The class initiation took place at a special meeting appointed for that purpose and visitors from the newly organized Willimantic and Putnam nests were among the crowd of over 300 men present who taxed the capacity of Owls' hall, where the initiation was held.

For the accommodation of some late applicants who took this last chance to come into the nest under the special initiation fee upon which it was working up to this meeting, the medical examiner was on hand at the rooms in the early part of the afternoon, and when the last late applicant had passed his scrutiny and the class of fifty was reported ready. President Ashley T. Boon called the nest to order for work. At the proper time the conduct of affairs was placed in the hands of the degree master, Dr. George A.
